Subject: Extension of Timeline for Entry of Pending Practical and Engineering Drawing marks for December 2023 Examinations-reg

Sir/Madam,

The result for December 2023 Supplementary and Leftover Examination has been declared by the DGT on 30th December 2023 for approximately 3.5 lakh trainees.

2. However, there are number of grievances being received from trainees, where their Practical and Engineering Drawing marks are either being shown as earlier marks or zero marks, despite them appearing for the Examinations.

3. This may be due to non-entry or non-approval of marks by the Nodal ITI/ SPIU. This is also being reflected in the number of marks finally received after SPIU's approval, as approximately 1 lakh entries for Practical and Engineering Drawing marks have been received against approximately 3.5 lakh Practical and Engineering Drawing Hall Tickets generated in the December 2023 Examinations.

4. To address the trainees' grievances and to check further grievances, it has been decided to open the NCVT MIS Portal for one more time for Nodal ITIs ad States to complete the exercise of the entry of the Practical and Engineering Drawing marks for trainees left for marks upload, as per below timeline:

S No	Activity	Stakeholder	Timeline
1	Practical and Engineering Drawing Marks Entry for Remaining Trainees of December 2023 Exam	Nodal ITI	3 rd to 6 th Jan 2024
2	Approval of Entered Marks	SPIU	3 rd to 8 th Jan 2024
3	Result Declaration for these remaining trainees	DGT	17 th Jan 2024
5	Opening of Exam Related Grievance Module for trainees who Participated in Dec 2023 Exam	Trainees	18 th Jan 2024

5. It may kindly be noted that this will be last opportunity for States and Nodal ITIs to enter Practical and Engineering Drawing marks for December 2023 Examination. If marks for any trainee is not uploaded even in this window, his earlier marks will be shown, if available, else trainee will be marked as absent.

This issues with the approval of the Competent Authority.
